## Objective

3rd year software engineering student with a solid programming principles and programming design background. Looking to learn how to apply concepts taught in classes such as object-oriented programming as well as software design patterns for a professional software development. Especially excels in Java and C++.

## Education

University of Calgary

Expected April 2024 (including internship)

### **BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING**

- Cumulative GPA: 3.10
- Developed a Rest API using Django as well as a responsive web app for Database Management Systems class

## Skills

**Languages** – Java, C++, Python (Django), HTML, CSS, PHP

**Operating Systems & Other Tools** – Unix, Windows, MATLAB, XML, SQL

## Programs

Git, Visual Studio Code, IntelliJ, MySQL, Microsoft Office Applications, Postman

## Work Experience

*VANS*

### **CUSTOMER SERVICE REPRESENTATIVE**

Nov 2019 – Jan 2020

- Exhibited great customer service by greeting all the entering customers and ensuring that they have someone approachable that can help them find whatever it is they are looking for
- Upheld store standard by making sure that the products are represented in a compelling way that is consistent with visual guidelines throughout the shifts
- Made sales by engaging with customers who are browsing and giving them information about current store deals that they may not be aware of

*CALGARY STAMPEDE*

### **VENUE SERVICES**

Jul 2018 & Jul 2016

- Ensured that the guests had an exceptional experience by keeping the venues, public restrooms, and corridors clean every shift
- Routinely helped food stalls by taking out their garbage piles
- Demonstrated exceptional attention to detail and was awarded with a Super Host Award in 2018
